Where do I get a secure cloud?

Simply try

Just a simple cloud!

I already have a RasPi…

I will buy a RasPi in the shop…

(chap. 3)

Flash SD card

(chap. 2.2)

micro SDXC V30 I 128GB U3 A1

Connect with the router (chap. 1.3) and switch it on

Let's start…

See chapters in the manual.

First time configuration

Windows	**Linux**

Download Windows installer

(chap. 4)

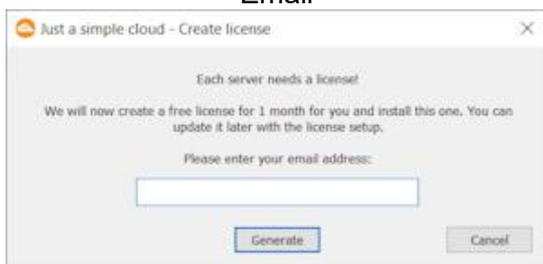

Install….

Start Setup

First time configuration (chap. 5)

Email

Project, Username, Password

And now tot he clients…

Download tar.gz archive

(chap. 7)

unzip…

First time configuration on command line

(chap. 8)

And now tot he clients…

Clients

Windows

↓

Setup – configure client

(chap. 6)

Just a simple cloud - Setup

V 5.50

How can we help?

○ RasPi server first time configuration

● Configure Windows client

○ Configure Android client

○ Update RasPi server software

○ Manage users on RasPi server

○ Manage license on RasPi server

[Manual]   [Continue]   [Close]

Linux

↓

jascsetup – command „client"

(chap. 9)
